

breaking ground building on a legacy

A Campaign to Build The Junior League of Austin COMMUNITY IMPACT CENTER

## The Junior League of Austin Capital Campaign Fact Sheet

*Building on our legacy of lasting impact, a vision for a better Austin is the driving force behind our expansion into a new headquarters that will position us to **do more** of what we do best - **impact the Austin community** by providing funding, volunteer power and the strength of women ready to serve and qualified to lead. This ground-breaking is a transformational moment in our history, providing the framework to seek out and discover new avenues for connecting to the Austin community.*

### **The Property:**

8501 Bluffstone Cove - a 10.2 acre tract of land in northwest Austin at the intersection of Loop 360 and Spicewood Springs Road. This property is one of the last available parcels of developable land in the central area, nestled in a lovely wooded area whose creek and bluff provide a stunning backdrop for our new headquarters. The design of our new facilities has been thoughtfully driven by an inherent Austin sensitivity to preserving and caring for our natural environment. Not only is Bluffstone centrally located for our membership, it is easily accessible for the community by design.

### **The Headquarters:**

In addition to meeting program, space, and parking requirements, we envision a new headquarters that will serve as a community center, where non-profits in the Austin area will be supported in new ways beyond our current capabilities.

While a bold and ambitious undertaking, the **Breaking Ground...Building on a Legacy Campaign** is a thoughtfully planned blueprint for the creation of The Junior League of Austin Headquarters, **The Community Impact Center**, ensuring increased and sustained community impact for decades to come.
